

**The Artex HSL Self Lock** is a heavy-duty option, designed for rougher applications, that helps you save money on installation costs and labour. With 70mm (2.7") x 70mm (2.7") top and bottom rails, this system allows for longer runs without intermediate posts.

## Why Choose An Artex Self Lock?

- **Durability** - With heavier components, continuous welds, and stronger bushings compared to other products on the market, our self locks are built to last
- **Low Maintenance** - Our products have minimal moving parts meaning there is likelihood of parts breaking down and issues arising
- **Ease Of Installation** - Easy mount hardware ensures fast installation in any application
- **Cow Friendliness** - Quick release mechanisms and more head and neck spacing, ensuring cow comfort
- **Quiet Operation** - Noise reducing hardware is standard on all Artex Self Locks

### **Special Features of Artex HSL Self Locks:**

- 70mm (2.7") heavy-duty top rail
- 70mm (2.7") heavy-duty bottom rail

### **Standard Features On All Artex Self Locks**

- Quick release
- Auto-open top with bottom blocker
- Individual and group animal lockup
- Noise reducing hardware
- Visual locking setting
- Rub-free flippers

**Choose between full hot dip galvanized and pre-galvanized self lock options**

**HSL Self Locks are available in 4, 5, and 6 openings per 3.05m (10') panels**
