

THE COMFORT ZONE™

The Artex Sloped Feed Rails are ideal for young animals, or those not used to headlocks. Designed to train cows to put their head in at shoulder height and then lower their head to eat, our feed rails feature a unique upright bend that ensures the maximum head and neck space for calf and cow comfort.

Artex Sloped Feed Rail Features

- Fully adjustable
- Use for any feed bunk
- Use for any age cattle
- Use for any size cattle
- Available in multiple sizes
- Able to be used as a feed gate
- Great training tool for young animals
- Ideal where self locks are not needed

Choose between pre-galvanized or fully hot dipped galvanized options.
