

The Artex WSL Self Lock is our widest option of self locks. Featuring an extra wide top and bottom opening, this series of self locks offers the ultimate flexibility for all herds.

Why Choose An Artex Self Lock?

- **Durability** - Our products have more steel per item, increased welds, and larger bushings compared to many other products on the market
- **Low Maintenance** - Our products have minimal moving parts
- **Ease Of Installation** - Easy mount hardware means installation can easily be carried out by one person
- **Cow Friendliness** - Quick release mechanisms, good head and neck spacing ensure cow comfort
- **Quiet Operation** - Noise reducing hardware on all Artex Self Locks

Special Features of Artex CSL Self Locks:

- 430mm (17") top opening
- 430mm (17") bottom opening

Standard Features On All Artex Self Locks

- Quick release
- Auto-open top with bottom blocker
- Individual and group animal lockup
- Noise reducing hardware
- Visual locking setting
- Rub-free flippers

Choose between full hot dip galvanized and pre-galvanized self lock options

WSL Self Locks are available in 4, 5, and 6 openings per 3.05m (10') panels

NEW FEATURE - SMART Control Rod Connection

Combining the accurate connection provided with a square control rod and the benefits of a round control rod.
