

THE COMFORT ZONE™

The Artex CSL Self Lock System was designed with larger herds and more mature animals in mind. It provides the ultimate in cow comfort with an exceptionally wide top opening and a curved rail that helps to minimize contact with a cow's head.

Why Choose An Artex Self Lock?

- **Durability** - With heavier components, continuous welds, and strong bushings compared to other products on the market, our self locks are built to last
- **Low Maintenance** - Our products have minimal moving parts, meaning there is likelihood of parts breaking down and issues arising
- **Ease Of Installation** - Easy mount hardware ensures fast installation in any application
- **Cow Friendliness** - Quick release mechanisms and more head and neck spacing, ensuring cow comfort
- **Quiet Operation** - Noise reducing hardware is standard on all Artex Self Locks

Special Features of Artex CSL Self Locks:

- 470mm (18.5") opening across the top
- Curved top rail for minimum contact with cow when head is removed at top

Standard Features On All Artex Self Locks

- Quick release
- Auto-open top with bottom blocker
- Individual and group animal lockup
- Noise reducing hardware
- Visual locking setting
- Rub-free flippers

Choose between full hot dip galvanized and pre-galvanized self lock options

CSL Self Locks are available in 4, 5, and 6 openings per 3.05m (10') panels

NEW FEATURES:

The CSL now has a round control rod with a SMART Control Rod Connection, maintaining the accurate and simple connection the square control rod provided.

CSL Systems now come with a removable control rod section allowing for easy maintenance and replacement.
