

Artex Standard Self Locks help to maximize labour and management efficiency by providing farmers with both group and individual lock up opportunities. This makes physical examinations, vaccinations, and other treatments easier to streamline.

Why Choose An Artex Self Lock?

- **Durability** - With heavier components, continuous welds, and strong bushings compared to other products on the market, our self locks are built to last
- **Low Maintenance** - Our products have minimal moving parts meaning there is likelihood of parts breaking down and issues arising
- **Ease Of Installation** - Easy mount hardware ensures fast installation in any application
- **Cow Friendliness** - Quick release mechanisms and more head and neck spacing, ensuring cow comfort
- **Quiet Operation** - Noise reducing hardware is standard on all Artex Self Locks

Standard Features On All Artex Self Locks

- Quick release
- Auto-open top with bottom blocker
- Individual and group animal lockup
- Noise reducing hardware
- Visual locking setting
- Rub-free flippers

There are over 55 sizes of Artex Standard Self Locks, and each size is available in pre-dipped and hot dipped galvanized options.

Artex Self Locks are available in 4, 5, 6, 7, and 8 openings per 3.05m (10') panels

We continually work to offer different dimensions and features that meet the growing needs of every market.
