

**THE COMFORTZONE™**

**The Artex Calf Zone Pen** is designed to provide the pen-to-pen isolation needed to protect your young herd. Suited for temperate and colder climates, our standard Calf Zone Pen protects against drafts.

**Designed with Versatility in mind**, our Calf Zone systems can be mounted against structural walls or in stand-alone rows. The PVC walls are removable for easy cleaning and grouping of calves, and are available in a variety of lengths.

**Customize Your Calf Zone System** with a wide variety of options. We offer different back wall, mounting, and bucket and bottle options.

**A Fundamental Part of the Comfort Zone™**  
the Calf Zone system features include:

- Optional hay feeders
- Easy latch opening gates
- 5L (1.32 Gal) and 10L (2.64 Gal) bucket holders
- 3L (0.79 Gal) and 6L (1.6 Gal) bottle feeders
- Removable walls for simplified cleaning
- Pen-to-Pen isolation for healthier calves
- Effective draft control in cooler climates
- Back wall/panel options to meet your needs
- Easy to install with a variety of mounting options

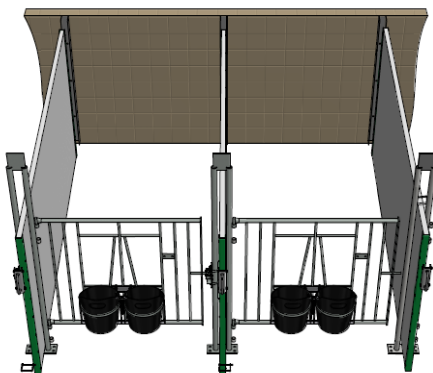

**Choose Between:**

2.4m/8' deep x .914m/3' wide x 1.22m/4' high

2.4m/8' deep x 1.22m/4' wide x 1.22m/4' high
