

**Give your calves a great start,
it's what they want**
**DeLaval mini swinging
brush MSB**

Calm, clean and healthy calves

More than 3 million dairy cows around the world benefit from daily grooming with DeLaval swinging cow brush SCB. With the new DeLaval mini swinging brush MSB, your calves can also enjoy the pleasure of grooming.

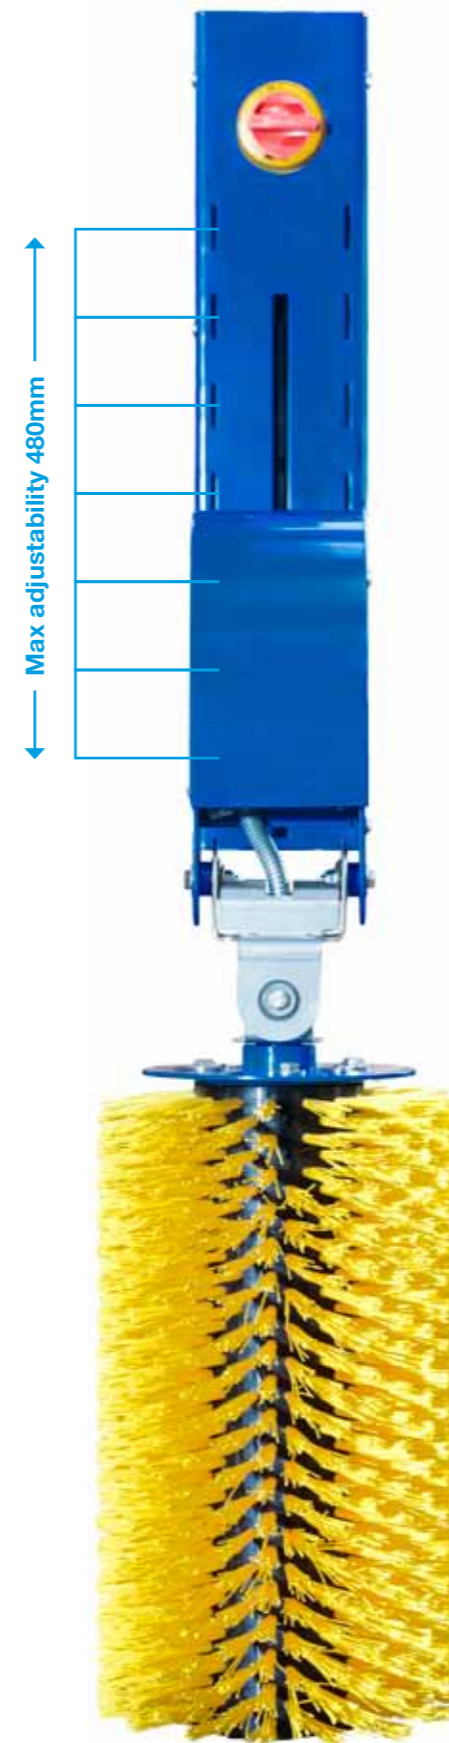

Benefits in brief:

- Improves calf health
- Contributes to faster growth
- Promotes greater productivity and lowers the risk of skin disease
- Keeps calves calm and clean
- Designed for safety and comfort

Give your calves the best start

The new DeLaval mini swinging brush MSB is a fast and cost-effective way to give your cows a great start to a productive life. Calves can walk up to the mini swinging brush when it suits them. Their hides are cleaned and blood circulation is stimulated. This improves overall calf wellbeing, promotes faster growth and therefore future productivity. It also reduces the risk of skin disease.

Grows with your calves

DeLaval mini swinging brush MSB is fully adjustable for growing calves. It is possible to adjust the height of the brush to make it suitable for animals between three and twelve months.

Calf friendly brushing

DeLaval mini swinging brush MSB begins to rotate at a gentle speed when a calf comes into contact with it and it moves up over and alongside the animal. Once the calf walks away the energy-saving automatic cut off feature stops the brush from rotating.

Designed for tough environments

The bracket and frame are made of strong, durable materials and are designed to withstand tough barn environments. The hard-wearing nylon bristles provide the right level of comfort for calves, while cleaning their hides and stimulating blood circulation.

Description	Test result*	Test result*	Evaluation*
Energy consumption	0,09 to 0,25 kWh/day	Very low	++
Safety stop	50 Newton	Stop at a very low resistance	++

* DLG
